

Index to volume 29

Author index*

Abstracts for the APIC 28th Annual Educational Conference and International Meeting are located at www.mosby.com/ajic.

A

- Agut H. Prevention and control of viral hospital infections. 2001;29:244-6
Aiello AE, Larson EL. An analysis of 6 decades of hygiene-related advertising: 1940-2000. 2001;29:383-8
Aiello AE (see Larson and Aiello). 2001;29:232-8
Akasaki FN (see Yildirim RC et al.). 2001;29:120-3 (Brief rep.)
Alfa MJ, Jackson M. A new hydrogen peroxide-based medical-device detergent with germicidal properties: comparison with enzymatic cleaners. 2001;29:168-77
Al-Humaidi F (see Hagen et al.). 2001;29:198-202 (Practice forum)
Almawi WY (see Irani-Hakime et al.). 2001;29:20-3
Andremont A. The future control of bacterial resistance to antimicrobial agents. 2001;29:256-8
Anglim AM (see Karchmer et al.). 2001;29:104-8
Aoun J-P (see Irani-Hakime et al.). 2001;29:20-3
Archibald LK (see Manning et al.). 2001;29:115-9
Arndt B (see Shadel et al.). 2001;29:347-51

B

- Banerjee SN (see Manning et al.). 2001;29:115-9
Bannatyne RM (see Mah et al.). 2001;29:284-8
Bär W, Márquez de Bär G, Naumann A, Rüsch-Gerdes S. Contamination of bronchoscopes with *Mycobacterium tuberculosis* and successful sterilization by low-temperature hydrogen peroxide plasma sterilization. 2001;29:306-11
Bass C (see Lappin-Scott and Bass). 2001;29:250-1
Beall G (see Sorvillo et al.). 2001;29:79-84
Beckmann SE (see McCoy et al.). 2001;29:24-31
Beer VL (see Sorvillo et al.). 2001;29:79-84
Belkin NL. Home laundering of soiled surgical scrubs: surgical site infections and the home environment. 2001;29:58-64 (Practice forum)
Bell LM (see Manning et al.). 2001;29:115-9
Blake MA (see Hagen et al.). 2001;29:198-202 (Practice forum)
Bloomfield SF. Preventing infectious disease in the domestic setting: a risk-based approach. 2001;29:207-10
Boeck H (see Sherry et al.). 2001;29:346 (Letter)
Bourke R (see van de Mortel et al.). 2001;29:395-9
Brady MT (see Stover et al.). 2001;29:152-7
Bratcher DF (see Stover et al.). 2001;29:152-7
Burridge CA (see Webster et al.). 2001;29:389-94

C

- Calil R, Marba STM, von Nowakowski A, Tresoldi AT. Reduction in colonization and nosocomial infection by multiresistant bacteria in a neonatal unit after institution of educational measures and restriction in the use of cephalosporins. 2001;29:133-8
Cardoso MFS (see Kawagoe et al.). 2001;29:109-14
Cheng SM, Streifel AJ. Infection control and considerations during construction activities: land excavation and demolition. 2001;29:321-8
Chenoweth C (see Friedman and Chenoweth). 2001;29:130 (Letter)
Chenoweth C (see Friedman et al.). 2001;29:329-32 (Practice forum)
Chenoweth C (see Saint et al.). 2001;29:338-44 (Current methodological concepts)

- Chung Y-S (see Kim K-M et al.). 2001;29:295-300
Clements B (see Shadel et al.). 2001;29:347-51
Clontz EP (see Hoffmann et al.). 2001;29:345-6 (Letter)
Cohen M (see Marine and Cohen). 2001;29:422-4
Coia JE, Masterton RG. Computer keyboards as a risk for nosocomial infection. 2001;29:345 (Letter) (Brief rep.)
Collins S (see Noskin et al.). 2001;29:126-9 (Clinical case study)
Corominas R (see Vilar-Compte et al.). 2001;29:99-103
Cunningham G (see Mah et al.). 2001;29:284-8
Cunningham G (see Memish et al.). 2001;29:301-5

D

- D'Agata EMC, Jirjis J, Gouldin C, Tang Y-W. Community dissemination of vancomycin-resistant *Enterococcus faecium*. 2001;29:316-20
de la Rosa M (see Vilar-Compte et al.). 2001;29:99-103
Delgado-Rodríguez M, Gómez-Ortega A, Sillero-Arena M, Martínez-Gallego G, Medina-Cuadros M, Llorca J. Efficacy of surveillance in nosocomial infection control in a surgical service. 2001;29:289-94
Djazmati W (see Memish et al.). 2001;29:301-5
Doebbeling BN (see McCoy et al.). 2001;29:24-31
Dodge ML (see Webster et al.). 2001;29:389-94
Durbin LJ (see Karchmer et al.). 2001;29:104-8

E

- Edwards J (see Richards et al.). 2001;29:400-403
Emery RJ (see Reddy and Emery). 2001;29:425-7 (Brief rep.)
Emori TG (see Richards et al.). 2001;29:400-403
Evans RG (see Shadel et al.). 2001;29:347-51
Exner M, Hartemann P, Kistemann T. Hygiene and health—the need for a holistic approach. 2001;29:228-31

F

- Farr BM (see Karchmer et al.). 2001;29:104-8
Fendrick AM (see Saint et al.). 2001;29:338-44 (Current methodological concepts)
Ferguson KJ (see McCoy et al.). 2001;29:24-31
Ferree K (see Southwick et al.). 2001;29:1-6
Fridkin S (see Richards et al.). 2001;29:400-403
Friedman C, Chenoweth C. Infection control staffing patterns. 2001;29:130 (Letter)
Friedman C, Sturm LK, Chenoweth C. Electronic chart review as an aid to postdischarge surgical site surveillance: increased case finding. 2001;29:329-32 (Practice forum)
Fukushima JT (see Kawagoe et al.). 2001;29:109-14

G

- Garcia-Caballero J, Martin-Moreno JM, Graciani-Perez-Regadera MA, Perez-Rodriguez J (see Herruzo-Cabrera et al.). 2001;29:162-7
Gastmeier P (see Lemmen et al.). 2001;29:89-93
Gaynes R (see Richards et al.). 2001;29:400-403
George N (see Webster et al.). 2001;29:389-94
Gilbert P, McBain AJ. Biofilms: their impact on health and their recalcitrance toward biocides. 2001;29:252-5
Girouard S, Levine G, Goodrich K, Jones S, Keyserling H, Rathore M, Rubens C, Williams E, Jarvis W. Infection control programs at children's hospitals: a description of structures and processes. 2001;29:145-51
Girouard S, Levine G, Goodrich K, Jones S, Keyserling H, Rathore M, Rubens C, Williams E, Jarvis W. Pediatric Prevention Network: a multicenter collaboration to improve health care outcomes. 2001;29:158-61
Giulivi A (see Sattar et al.). 2001;29:187-97 (State of the science)
Gómez-Ortega A (see Delgado-Rodríguez et al.). 2001;29:289-94
Goodnough S (see Mylotte et al.). 2001;29:139-44
Goodrich K (see Girouard et al.). 2001;29:145-51, 2001;29:158-61
Gordillo P (see Vilar-Compte et al.). 2001;29:99-103
Gouldin C (see D'Agata et al.). 2001;29:316-20
Graciani-Perez-Regadera MA (see Herruzo-Cabrera et al.). 2001;29:162-7
Greene VW. Personal hygiene and life expectancy improvements since 1850: historic and epidemiologic associations. 2001;29:203-6
Grove GL, Zerweck CR, Heilman JM, Pyrek JD. Methods for evaluating

*February, 1-68; April, 69-132; June, 133-202; August, 203-280; October, 281-346; December 347-440.

- changes in skin condition due to the effects of antimicrobial hand cleansers: 2 studies comparing a new waterless chlorhexidine gluconate/ethanol-emollient antiseptic preparation with a conventional water-applied product. 2001;29:361-9
- Guay DRP. Pet-assisted therapy in the nursing home setting: potential for zoonosis. 2001;29:178-86 (State of the science)
- H**
- Hagen DL, Al-Humaidi F, Blake MA. Infectious waste surveys in a Saudi Arabian hospital: an important quality improvement tool. 2001;29:198-202 (Practice forum)
- Hanakowski M (see Langley et al). 2001;29:94-8
- Harness GA (see Hayes and Harness). 2001;29:271-4 (Practice forum)
- Harris AD (see Perencevich et al). 2001;29:281-3 (Commentary)
- Hartemann P (see Exner et al). 2001;29:228-31
- Hayes MO, Harness GA. Body piercing as a risk factor for viral hepatitis: an integrative research review. 2001;29:271-4 (Practice forum)
- Heilman JM (see Grove et al). 2001;29:361-9
- Heilman J (see Mulberry et al). 2001;29:377-82
- Henly SJ (see O'Boyle et al). 2001;29:352-60
- Henry B, Plante-Jenkins C, Ostrowska K. An outbreak of *Serratia marcescens* associated with the anesthetic agent propofol. 2001;29:312-5
- Herruzo-Cabrera R, Garcia-Caballero J, Martin-Moreno JM, Graciani-Perez-Regadera MA, Perez-Rodriguez J. Clinical assay of N-duropenide alcohol solution on hand application in newborn and pediatric intensive care units: control of an outbreak of multiresistant *Klebsiella pneumoniae* in a newborn intensive care unit with this measure. 2001;29:162-7
- Hoffmann K, Clontz EP, Rutala WA, Weber DJ. Patient attire in ambulatory surgery. 2001;29:345-6 (Letter)

Subject index*

A

Acinetobacter baumannii

Outbreak of *Acinetobacter baumannii* in an intensive care unit associated with tracheostomy (Mah et al). 2001;29:284-8

Advertising

An analysis of 6 decades of hygiene-related advertising: 1940-2000 (Aiello and Larson). 2001;29:383-8

Aged

Antibiotic-resistant organisms among long-term care facility residents on admission to an inpatient geriatrics unit: retrospective and prospective surveillance (Mylotte et al). 2001;29:139-44

Ambulatory surgical procedures

Surgical site infections in ambulatory surgery: a 5-year experience (Vilar-Compte et al). 2001;29:99-103

Anesthesia

An outbreak of *Serratia marcescens* associated with the anesthetic agent propofol (Henry et al). 2001;29:312-15

Antibiotics

The future control of bacterial resistance to antimicrobial agents (Andremont). 2001;29:256-8

Impact of antibiotic prophylaxis on wound infection after cesarean section in a situation of expected high risk (Mah et al). 2001;29:85-8

Mechanisms of bacterial insusceptibility (Russell). 2001;29:259-61

Anti-infective agents

Evaluation of a waterless, scrubless chlorhexidine gluconate/ethanol surgical scrub for antimicrobial efficacy (Mulberry et al). 2001;29:377-82

National and regional assessment of the antibacterial soap market: a step toward determining the impact of prevalent antibacterial soaps (Perencevich et al). 2001;29:281-3 (Commentary)

Preventing the spread of hepatitis B and C viruses: where are germicides relevant? (Sattar et al). 2001;29:187-97 (State of the science)

Washington State hospital survey 2000: gloves, handwashing agents, and moisturizers (Marino and Cohen). 2001;29:422-4

Water or antiseptic for periurethral cleaning before urinary catheterization: a randomized controlled trial (Webster et al). 2001;29:389-94

Aspergillus

A cluster of invasive aspergillosis in a bone marrow transplant unit related to construction and the utility of air sampling (Lai). 2001;29:333-7 (Brief rep.)

Association for Professionals in Infection Control and Epidemiology, Inc.

What we need to know about bioterrorism preparedness: results from focus groups conducted at APIC 2000 (Shadel et al). 2001;29:347-51

B

Bacteremia

Community-acquired bacteremia at a teaching versus a nonteaching hospital: impact of acute severity of illness on 30-day mortality (Mylotte et al). 2001;29:13-19

Bacteria

Antibacterial efficacy of polymers containing triclosan and other antimicrobial additives (Swofford) (Letter) (Kaylon and Olgun) (Letter reply). 2001;29:428

Antibacterial efficacy of triclosan-incorporated polymers (Kaylon and Olgun). 2001;29:124-5 (Brief rep.)

Dealing with contaminated computer keyboards and microbial survival (Neely and Maley). 2001;29:131-2 (Letter)

Mechanisms of bacterial insusceptibility (Russell). 2001;29:259-61

Biofilms

Biofilm formation: attachment, growth, and detachment of microbes from surfaces (Lappin-Scott and Bass). 2001;29:250-1

Biofilms: their impact on health and their recalcitrance toward biocides (Gilbert and McBain). 2001;29:252-5

Bioterrorism

What we need to know about bioterrorism preparedness: results from focus groups conducted at APIC 2000 (Shadel et al). 2001;29:347-51

Body piercing

Body piercing as a risk factor for viral hepatitis: an integrative research review (Hayes and Harness). 2001;29:271-4 (Practice forum)

Bonding, human pet

Pet-assisted therapy in the nursing home setting: potential for zoonosis (Guay). 2001;29:178-86 (State of the science)

Bone marrow transplantation

A cluster of invasive aspergillosis in a bone marrow transplant unit related to construction and the utility of air sampling (Lai). 2001;29:333-7 (Brief rep.)

Booster effect

Tuberculosis tracking: determining the frequency of the booster effect in patients and staff (Sherman and Shimoda). 2001;29:7-12

Brief reports

2001;29:120-5, 333-7, 422-424, 425-427

Bronchoscopes

Cluster of tuberculosis cases in North Carolina: possible association with atomizer reuse (Southwick et al). 2001;29:1-6

Contamination of bronchoscopes with *Mycobacterium tuberculosis* and successful sterilization by low-temperature hydrogen peroxide plasma sterilization (Bär et al). 2001;29:306-11

Brucellosis

Brucellosis in laboratory workers at a Saudi Arabian hospital (Memish and Mah). 2001;29:48-52 (Global perspectives)

C

Catheterization, central venous

Changing concepts in long-term central venous access: catheter selection and cost savings (Horattas et al). 2001;29:32-40

Catheters, indwelling

Changing concepts in long-term central venous access: catheter selection and cost savings (Horattas et al). 2001;29:32-40

Cephalosporins

Reduction in colonization and nosocomial infection by multiresistant bacteria in a neonatal unit after institution of educational measures and restriction in the use of cephalosporins (Calil et al). 2001;29:133-8

Cesarean section

Impact of antibiotic prophylaxis on wound infection after cesarean section in a situation of expected high risk (Mah et al). 2001;29:85-8

Children

Infection control programs at children's hospitals: a description of structures and processes (Girouard et al). 2001;29:145-51

The Internet: a practical example of the use of new technology in the assessment of vancomycin use in pediatrics (Sinkowitz-Cochran et al) (2000;28:459-64). 2001;29:65

Pediatric Prevention Network: a multicenter collaboration to improve health care outcomes (Girouard et al). 2001;29:158-61

Serratia marcescens transmission in a pediatric intensive care unit: a multifactorial occurrence (Manning et al). 2001;29:115-19

Tetanus IgG antibody levels in children aged 12 to 47 months in Turkey (Yıldırım et al). 2001;29:120-3 (Brief rep.)

Unique epidemiology of nosocomial urinary tract infection in children (Langley et al). 2001;29:94-8

Chlorhexidine gluconate

Evaluation of a waterless, scrubless chlorhexidine gluconate/ethanol surgical scrub for antimicrobial efficacy (Mulberry et al). 2001;29:377-82

Washington State hospital survey 2000: gloves, handwashing agents, and moisturizers (Marino and Cohen). 2001;29:422-4

Clinical case studies

2001;29:65-6, 26-129

Clinical conferences

Euroconference: hygiene and health (Larson). 2001;29:203

Clinical trials

A randomized clinical trial to compare the effects of a heat and moisture exchanger with a heated humidifying system on the occurrence rate of ventilator-associated pneumonia (Memish et al). 2001;29:301-5

Clothing

Patient attire in ambulatory surgery (Hoffmann et al). 2001;29:345-6 (Letter)

*February, 1-68; April, 69-132; June, 133-202; August, 203-280; October, 281-346; December 347-440.

Commentary**Commentary.** 2001;29:281-3**Computer keyboards**

Computer keyboards as a risk for nosocomial infection (Coia and Masterton). 2001;29:345 (Letter)

Dealing with contaminated computer keyboards and microbial survival (Neely and Maley). 2001;29:131-2 (Letter)

Corrections

The Internet: a practical example of the use of new technology in the assessment of vancomycin use in pediatrics (Sinkowitz-Cochran et al) (2000;28:459-64). 2001;29:64

Pilot testing standardized surveillance: hospital infection standardized surveillance (HISS) (McLaws and Caelli) (2000;28:401-5). 2001;29:64

 Biofilm formation, attachment, growth, and detachment of microbes from surfaces (Lappin-Scott and Bass). 2001;29:250-1
 Biofilms: their impact on health and their recalcitrance toward biocides (Gilbert and McBain). 2001;29:252-5
 Efficacy of surveillance in nosocomial infection control in a surgical service (Delgado-Rodriguez et al). 2001;29:289-94
 The future control of bacterial resistance to antimicrobial agents (Andremont). 2001;29:256-8
 Home laundering of soiled surgical scrubs: surgical site infections and the home environment (Belkin). 2001;29:58-64 (Practice forum)
 Infection control and considerations during construction activities: land excavation and demolition (Cheng and Streifel). 2001;29:321-8
 Infection control practices in institutional settings (Rubino). 2001;29:241-3
 Infection control programs at children's hospitals: a description of structures and processes (Girouard et al). 2001;29:145-51
 Nosocomial infection rates in US children's hospitals' neonatal and pediatric intensive care units (Stover et al). 2001;29:152-7
 Pandora's box: old and new emerging infections in at-risk populations (Privitera et al). 2001;29:222-4
 The potential benefits of infection control measures in the home (Scott). 2001;29:247-9
 Preventing infectious disease in the domestic setting: a risk-based approach (Bloomfield). 2001;29:207-10
 Prevention and control of viral hospital infections (Agut). 2001;29:244-6
 Prospective surveillance applying the National Nosocomial Research priorities project, year 2000: establishing a direction for infection control and hospital epidemiology (Lynch et al). 2001;29:73-8

- Research priorities project, year 2000: the Lone Ranger rides again (Larson and Olmsted). 2001;29:69-72 (Editorial)

- The role of economic evaluation in infection control (Saint et al). 2001;29:338-44 (Current methodological concepts)

Infection control practitioners

- Characteristics of hospitals and infection control professionals participating in the National Nosocomial Infections Surveillance system 1999 (Richards et al). 2001;29:400-403

- Computer keyboards as a risk for nosocomial infection (Coia and Masterton). 2001;29:345 (Letter)

- Infection control staffing patterns (Friedman and Chenoweth). 2001;29:130 (Letter)

- Pediatric Prevention Network: a multicenter collaboration to improve health care outcomes (Girouard et al). 2001;29:158-61

- Variation in administrators' and clinicians' attitudes toward critical elements of an infection control program and the role of the infection control practitioner in New South Wales, Australia (Murphy and McLaws). 2001;29:262-70

Information management

- Pilot testing standardized surveillance: hospital infection standardized surveillance (HISS) (McLaw and Caelli) (2000;28:401-5). 2001;29:65

Intensive care units

- Gender influences handwashing rates in the critical care unit (van de Mortel). 2001;29:395-9

- Implementing and evaluating a rotating surveillance system and infection control guidelines in 4 intensive care units (Lemmen et al). 2001;29:89-93

- National Nosocomial Infections Surveillance (NNIS) System Report, Data Summary from January 1992-June 2001, Issued August 2001 (NNIS System). 2001;29:404-21 (Special article)

- Outbreak of *Acinetobacter baumannii* in an intensive care unit associated with tracheostomy (Mah et al). 2001;29:284-8

- A randomized clinical trial to compare the effects of a heat and moisture exchanger with a heated humidifying system on the occurrence rate of ventilator-associated pneumonia (Memish et al). 2001;29:301-5

Intensive care units, neonatal

- Clinical assay of N-dupropenide alcohol solution on hand application in newborn and pediatric intensive care units: control of an outbreak of multiresistant *Klebsiella pneumoniae* in a newborn intensive care unit with this measure (Herruzo-Cabrera et al). 2001;29:162-7

- Nosocomial infection rates in US children's hospitals' neonatal and pediatric intensive care units (Stover et al). 2001;29:152-7

- Paenibacillus macerans* pseudobacteremia resulting from contaminated blood culture bottles in a neonatal intensive care unit (Noskin et al). 2001;29:126-9 (Clinical case study)

- Reduction in colonization and nosocomial infection by multiresistant bacteria in a neonatal unit after institution of educational measures and restriction in the use of cephalosporins (Calil et al). 2001;29:133-8

- Risk factors for nosocomial infections in critically ill newborns: a 5-year prospective cohort study (Kawagoe et al). 2001;29:109-14

Intensive care units, pediatric

- Clinical assay of N-dupropenide alcohol solution on hand application in newborn and pediatric intensive care units: control of an outbreak of multiresistant *Klebsiella pneumoniae* in a newborn intensive care unit with this measure (Herruzo-Cabrera et al). 2001;29:162-7

- Nosocomial infection rates in US children's hospitals' neonatal and pediatric intensive care units (Stover et al). 2001;29:152-7

- Serratia marcescens* transmission in a pediatric intensive care unit: a multifactorial occurrence (Manning et al). 2001;29:115-19

Internet

- The Internet: a practical example of the use of new technology in the assessment of vancomycin use in pediatrics (Sinkowitz-Cochran et al) (2000;28:459-64). 2001;29:65

Iodophors

- A new, water-resistant, film-forming, 30-second, one-step application iodophor preoperative skin preparation (Jeng). 2001;29:370-6

K***Klebsiella pneumoniae***

- Clinical assay of N-dupropenide alcohol solution on hand application in newborn and pediatric intensive care units: control of an outbreak of multiresistant *Klebsiella pneumoniae* in a newborn intensive care unit with this measure (Herruzo-Cabrera et al). 2001;29:162-7

L**Laboratory personnel**

- Brucellosis in laboratory workers at a Saudi Arabian hospital (Memish and Mah). 2001;29:48-52 (Global perspectives)

Laundering

- Home laundering of soiled surgical scrubs: surgical site infections and the home environment (Belkin). 2001;29:58-64 (Practice forum)

Letters

- Be careful what you look for (Willey). 2001;29:132

- Computer keyboards as a risk for nosocomial infection (Coia and Masterton). 2001;29:345

- Dealing with contaminated computer keyboards and microbial survival (Neely and Maley). 2001;29:131-2

- Infection control staffing patterns (Friedman and Chenoweth). 2001;29:130

Patient attire in ambulatory surgery (Hoffmann et al). 2001;29:345-6
 Topical application of a new formulation of eucalyptus oil phytochemical clears methicillin-resistant *Staphylococcus aureus* infection (Sherry et al). 2001;29:346

Life expectancy

Personal hygiene and life expectancy improvements since 1850: historic and epidemiologic associations (Greene). 2001;29:203-6

Listeria monocytogenes

Listeria and listeriosis: risk assessment as a new tool to unravel a multifaceted problem (Rocourt et al). 2001;29:225-7

Long-term care

Antibiotic-resistant organisms among long-term care facility residents on admission to an inpatient geriatrics unit: retrospective and prospective surveillance (Mylotte et al). 2001;29:139-44

Infection control practices in institutional settings (Rubino). 2001;29:241-3

Pet-assisted therapy in the nursing home setting: potential for zoonosis (Guay). 2001;29:178-86 (State of the science)

M

Medical records systems, computerized

Electronic chart review as an aid to postdischarge surgical site surveillance: increased case finding (Friedman et al). 2001;29:329-32 (Practice forum)

Medical waste

Infectious waste surveys in a Saudi Arabian hospital: an important quality improvement tool (Hagen et al). 2001;29:198-202 (Practice forum)

Microscopy

Biofilm formation: attachment, growth, and detachment of microbes from surfaces (Lappin-Scott and Bass). 2001;29:250-1

N

Nebulizers and vaporizers

Cluster of tuberculosis cases in North Carolina: possible association with atomizer reuse (Southwick et al). 2001;29:1-6

Needlestick injuries

Assessing the effect of long-term availability of engineering controls on needlestick injuries among health care workers: a 3 year preimplementation and postimplementation comparison (Reddy and Emery). 2001;29:425-7

Nurseries, hospital

National Nosocomial Infections Surveillance (NNIS) System Report, Data Summary from January 1992-June 2001, Issued August 2001 (NNIS System). 2001;29:404-21 (Special article)

O

Outpatients

Pandora's box: old and new emerging infections in at-risk populations (Privitera et al). 2001;29:222-4

Patient attire in ambulatory surgery (Hoffmann et al). 2001;29:345-6 (Letter)

Surgical site infections in ambulatory surgery: a 5-year experience (Vilar-Compte et al). 2001;29:99-103

P

Paenibacillus macerans

Paenibacillus macerans pseudobacteremia resulting from contaminated blood culture bottles in a neonatal intensive care unit (Noskin et al). 2001;29:126-9 (Clinical case study)

Pharyngitis

Pseudoepidemic of streptococcal pharyngitis in a hospital pharmacy (Karchmer et al). 2001;29:104-8

Planned behavior theory

Understanding adherence to hand hygiene recommendations: the theory of planned behavior (O'Boyle et al). 2001;29:352-60

Pneumonia

A randomized clinical trial to compare the effects of a heat and moisture exchanger with a heated humidifying system on the occurrence rate of ventilator-associated pneumonia (Memish et al). 2001;29:301-5

Polystyrenes

Antibacterial efficacy of polymers containing tricosan and other antimicrobial additives (Swofford) (Letter) (Kaylon and Olgun) (Letter reply). 2001;29:428

Antibacterial efficacy of tricosan-incorporated polymers (Kaylon and Olgun). 2001;29:124-5 (Brief rep.)

Practice forum

2001;29:198-202, 271-80, 329-32

Preoperative care

Evaluation of a waterless, scrubless chlorhexidine gluconate/ethanol surgical scrub for antimicrobial efficacy (Mulberry et al). 2001;29:377-82

A new, water-resistant, film-forming, 30-second, one-step application iodophor preoperative skin preparation (Jeng). 2001;29:370-6

Prevail-Fx

A new, water-resistant, film-forming, 30-second, one-step application iodophor preoperative skin preparation (Jeng). 2001;29:370-6

Preventive medicine

Pandora's box: old and new emerging infections in at-risk populations (Privitera et al). 2001;29:222-4

Propofol

An outbreak of *Serratia marcescens* associated with the anesthetic agent propofol (Henry et al). 2001;29:312-15

Pseudomonas aeruginosa

Incidence and determinants of *Pseudomonas aeruginosa* infection among persons with HIV: association with hospital exposure (Sorvillo et al). 2001;29:79-84

Public health

An analysis of 6 decades of hygiene-related advertising: 1940-2000 (Aiello and Larson). 2001;29:383-8

Hygiene and health: an epidemiologic link? (Larson and Aiello). 2001;29:232-8

The role of handwashing in improving hygiene and health in low-income countries (Luby). 2001;29:239-40

What we need to know about bioterrorism preparedness: results from focus groups conducted at APIC 2000 (Shadel et al). 2001;29:347-51

R

Research

Research priorities project, year 2000: establishing a direction for infection control and hospital epidemiology (Lynch et al). 2001;29:73-8

Research priorities project, year 2000: the Lone Ranger rides again (Larson and Olmsted). 2001;29:69-72 (Editorial)

Rifampin

Drug-resistant tuberculosis in Taipei, 1996, 1999 (Wang and Lin). 2001;29:41-7 (Global perspectives)

Risk assessment

Hygiene and health—the need for a holistic approach (Exner et al). 2001;29:228-31

Listeria and listeriosis: risk assessment as a new tool to unravel a multifaceted problem (Rocourt et al). 2001;29:225-7

S

Salmonellosis

Nosocomial salmonellosis: implications for microbiologic processing of stools in hospitalized patients (Matlow and Steitenberger). 2001;29:65-6 (Clinical case study)

Sanitation

The correlation between sustainable development and home hygiene (Terpstra). 2001;29:211-17

Transmission of gastrointestinal diseases: hygiene as the final barrier (Payment). 2001;29:218-21

Serratia marcescens

An outbreak of *Serratia marcescens* associated with the anesthetic agent propofol (Henry et al). 2001;29:312-15

Serratia marcescens transmission in a pediatric intensive care unit: a multifactorial occurrence (Manning et al). 2001;29:115-19

Sex characteristics

Gender influences handwashing rates in the critical care unit (van de Mortel). 2001;29:395-9

Skin physiology

Methods for evaluating changes in skin condition due to the effects of antimicrobial hand cleansers: 2 studies comparing a new waterless chlorhexidine gluconate/ethanol-emollient antiseptic preparation with a conventional water-applied product (Grove et al). 2001;29:361-9

Skin tests

Tuberculosis tracking: determining the frequency of the booster effect in patients and staff (Sherman and Shimoda). 2001;29:7-12

Soaps

National and regional assessment of the antibacterial soap market: a step toward determining the impact of prevalent antibacterial soaps (Perencevich et al). 2001;29:281-3 (Commentary)

Special articles

2001;29:404-21

Staphylococcus aureus

Topical application of a new formulation of eucalyptus oil phytochemical clears methicillin-resistant *Staphylococcus aureus* infection (Sherry et al). 2001;29:346 (Letter)

State of the science

2001;29:178-97

Streptococcus pyogenes

Pseudoepidemic of streptococcal pharyngitis in a hospital pharmacy (Karchmer et al). 2001;29:104-8

Students, medical

Knowledge and performance of the universal precautions by nursing and medical students in Korea (Kim et al). 2001;29:295-300

Students, nursing

Knowledge and performance of the universal precautions by nursing and medical students in Korea (Kim et al). 2001;29:295-300

Surgery, department, hospital

Efficacy of surveillance in nosocomial infection control in a surgical service (Delgado-Rodriguez et al). 2001;29:289-94

National Nosocomial Infections Surveillance (NNIS) System Report, Data Summary from January 1992-June 2001, Issued August 2001 (NNIS System). 2001;29:404-21 (Special article)

Surgical wound infections

Electronic chart review as an aid to postdischarge surgical site surveillance: increased case finding (Friedman et al). 2001;29:329-32 (Practice forum)

Home laundering of soiled surgical scrubs: surgical site infections and the home environment (Belkin). 2001;29:58-64 (Practice forum)

Impact of antibiotic prophylaxis on wound infection after cesarean section in a situation of expected high risk (Mah et al). 2001;29:85-8

Patient attire in ambulatory surgery (Hoffmann et al). 2001;29:345-6 (Letter)

Surgical site infections in ambulatory surgery: a 5-year experience (Vilar-Compte et al). 2001;29:99-103

Surveillance

Characteristics of hospitals and infection control professionals participating in the National Nosocomial Infections Surveillance system 1999 (Richards et al). 2001;29:400-403

Descriptive study of nosocomial infections in a short-term inpatient behavioral health setting (Shandera). 2001;29:275-80 (Practice forum)

Electronic chart review as an aid to postdischarge surgical site surveillance: increased case finding (Friedman et al). 2001;29:329-32 (Practice forum)

Implementing and evaluating a rotating surveillance system and infection control guidelines in 4 intensive care units (Lemmen et al). 2001;29:89-93

Pilot testing standardized surveillance: hospital infection standardized surveillance (HISS) (McLaws and Caelli) (2000;28:401-5). 2001;29:65

Unique epidemiology of nosocomial urinary tract infection in children (Langley et al). 2001;29:94-8

T**Tetanus**

Tetanus IgG antibody levels in children aged 12 to 47 months in Turkey (Yildirim et al). 2001;29:120-3 (Brief rep.)

Tracheostomy

Outbreak of *Acinetobacter baumannii* in an intensive care unit associated with tracheostomy (Mah et al). 2001;29:284-8

Triclosan

Antibacterial efficacy of polymers containing triclosan and other antimicrobial additives (Swofford) (Letter) (Kaylon and Olgun) (Letter reply). 2001;29:428

Antibacterial efficacy of triclosan-incorporated polymers (Kaylon and Olgun). 2001;29:124-5 (Brief rep.)

National and regional assessment of the antibacterial soap market: a step toward determining the impact of prevalent antibacterial soaps (Perencevich et al). 2001;29:281-3 (Commentary)

Tuberculosis

Cluster of tuberculosis cases in North Carolina: possible association with atomizer reuse (Southwick et al). 2001;29:1-6

Contamination of bronchoscopes with *Mycobacterium tuberculosis* and successful sterilization by low-temperature hydrogen peroxide plasma sterilization (Bär et al). 2001;29:306-11

Drug-resistant tuberculosis in Taipei, 1996, 1999 (Wang and Lin). 2001;29:41-7 (Global perspectives)

Tuberculosis tracking: determining the frequency of the booster effect in patients and staff (Sherman and Shimoda). 2001;29:7-12

U**Universal precautions**

Implementing and evaluating a rotating surveillance system and infection control guidelines in 4 intensive care units (Lemmen et al). 2001;29:89-93

Knowledge and performance of the universal precautions by nursing and medical students in Korea (Kim et al). 2001;29:295-300

Monitoring adherence to Standard Precautions (McCoy et al). 2001;29:24-31

Urinary catheterization

Water or antiseptic for periurethral cleaning before urinary catheterization: a randomized controlled trial (Webster et al). 2001;29:389-94

Urinary tract infections

Unique epidemiology of nosocomial urinary tract infection in children (Langley et al). 2001;29:94-8

Water or antiseptic for periurethral cleaning before urinary catheterization: a randomized controlled trial (Webster et al). 2001;29:389-94

V**Vaccination**

Tetanus IgG antibody levels in children aged 12 to 47 months in Turkey (Yildirim et al). 2001;29:120-3 (Brief rep.)

Vancomycin

Community dissemination of vancomycin-resistant *Enterococcus faecium* (D'Agata et al). 2001;29:316-20

Evaluation of a successful vancomycin-resistant *Enterococcus* prevention intervention in a community of health care facilities (Sohn et al). 2001;29:53-7 (Practice forum)

The Internet: a practical example of the use of new technology in the assessment of vancomycin use in pediatrics (Sinkowitz-Cochran et al) (2000;28:459-64). 2001;29:65

Viruses

Prevention and control of viral hospital infections (Agut).

2001;29:244-6

W**Water pollutants**

The correlation between sustainable development and home hygiene (Terpstra). 2001;29:211-17

Workplace

Hospital safety climate and its relationship with safe work practices and workplace exposure incidents (Gershon et al)

Z**Zoonoses**

Pet-assisted therapy in the nursing home setting: potential for zoonosis (Guay). 2001;29:178-86 (State of the science)
